目　　录

第一部分　中下扬子地区二叠纪岩相古地理研究

冯增昭　何幼斌　吴胜和

第一章　绪论 …… 3
第二章　地层 …… 7
第一节　二叠系的下界 …… 7
第二节　鸡公岭组 …… 9
第三节　栖霞组 …… 9
第四节　茅口组（孤峰组） …… 11
第五节　吴家坪组（龙潭组） …… 12
第六节　长兴组（大隆组） …… 13
第三章　化石组合 …… 15
第一节　各类化石概述 …… 15
一、藻类 …… 15
二、有孔虫 …… 15
三、放射虫 …… 16
四、海绵动物 …… 16
五、珊瑚 …… 16
六、腕足类 …… 16
七、其它生物 …… 16
第二节　化石组合 …… 17
一、含植物化石类组合 …… 17
二、藻类-鏈-珊瑚组合 …… 17
三、海绵水螅组合 …… 19
四、放射虫菊石组合 …… 20
第三节　各组化石组合特征 …… 21
一、栖霞组 …… 21
二、茅口组（孤峰组） …… 21
三、吴家坪组（龙潭组） …… 22
四、长兴组（大隆组） …… 23
第四章　岩石 …… 25
第一节　石灰岩 …… 25
一、颗粒石灰岩 …… 25
二、颗粒质灰泥石灰岩及含颗粒灰泥石灰岩 …… 27
三、灰泥石灰岩 …… 27
四、礁石灰岩 …… 27
五、重力流石灰岩 …… 28

六、眼球状石灰岩 ……29
第二节　白云岩 ……30
一、泥—粉晶白云岩 ……30
二、细—中晶白云岩 ……30
第三节　碎屑岩 ……31
一、砂岩 ……31
二、粉砂岩 ……31
三、泥页岩 ……32
第五章　硅岩 ……33
第一节　薄层硅岩 ……33
一、基本特征 ……33
二、成因研究 ……34
第二节　似层状硅岩 ……39
一、基本特征 ……39
二、成因研究 ……39
第三节　透镜状、团块状硅岩 ……40
一、基本特征 ……40
二、成因研究 ……40
第六章　单因素分析综合作图法——岩相古地理研究方法论 ……42
第一节　概述 ……42
第二节　各单因素分述 ……43
第七章　早二叠世岩相古地理 ……45
第一节　鸡公岭期岩相古地理 ……45
第二节　栖霞期岩相古地理 ……45
一、单因素基础图件 ……45
二、岩相古地理 ……47
第三节　茅口期岩相古地理 ……48
一、单因素基础图件 ……48
二、岩相古地理 ……50
三、淮滩的形成与特征 ……53
第八章　晚二叠世岩相古地理 ……55
第一节　吴家坪期岩相古地理 ……55
一、单因素基础图件 ……55
二、岩相古地理 ……56
第二节　长兴期岩相古地理 ……58
一、单因素基础图件 ……58
二、岩相古地理 ……59
三、长兴期礁的分布规律 ……61
第九章　从岩相古地理谈油气生储盖条件及其它沉积矿产 ……66
第一节　生油气条件 ……66
第二节　油气储集条件 ……67

一、碳酸盐岩油气储集岩 ……67
二、碎屑岩油气储集岩 ……69
第三节　油气盖层条件及油气生储盖组合 ……70
第四节　其它沉积矿产……71
参考文献 ……72
附图 ……74
1．中下扬子地区早二叠世鸡公岭期岩相古地理略图……74
2．中下扬子地区下二叠统栖霞组厚度等值线图 ……75
3．中下扬子地区下二叠统栖霞组生物颗粒含量（%）等值线图 ……77
4．中下扬子地区下二叠统栖霞组似层状硅岩分布图……78
5．中下扬子地区下二叠统栖霞组岩石类型厚度比值等值线图 ……79
6．中下扬子地区早二叠世栖霞期岩相古地理图 ……80
7．中下扬子地区下二叠统茅口组（孤峰组）厚度等值线图 ……81
8．中下扬子地区下二叠统茅口组（孤峰组）碳酸盐岩含量(%)等值线图 ……83
9．中下扬子地区下二叠统茅口组（孤峰组）薄层硅岩含量(%)等值线图 ……84
10．中下扬子地区下二叠统茅口组（孤峰组）砂岩含量（%）等值线图 ……85
11．中下扬子地区下二叠统茅口组（孤峰组）深水沉积厚度与浅水沉积厚度比值（D/S）等值线图 ……86
12．中下扬子地区早二叠世茅口期岩相古地理图 ……87
13．中下扬子地区上二叠统吴家坪组（龙潭组）厚度等值线图 ……88
14．中下扬子地区上二叠统吴家坪组（龙潭组）碳酸盐岩含量（%）等值线图……90
15．中下扬子地区上二叠统吴家坪组（龙潭组）砂岩含量（%）等值线图 ……91
16．中下扬子地区上二叠统吴家坪组（龙潭组）薄层硅岩含量（%）等值线图……92
17．中下扬子地区上二叠统吴家坪组（龙潭组）深水沉积厚度与浅水沉积厚度比值（D/S）等值线图 ……93
18．中下扬子地区晚二叠世吴家坪期岩相古地理图 ……94
19．中下扬子地区上二叠统长兴组（大隆组）厚度等值线图 ……95
20．中下扬子地区上二叠统长兴组（大隆组）礁的分布和亮晶颗粒石灰岩含量（%）等值线图 ……97
21．中下扬子地区上二叠统长兴组（大隆组）薄层硅岩含量(%)等值线图 ……98
22．中下扬子地区上二叠统长兴组（大隆组）深水沉积厚度与浅水沉积厚度比值（D/S）等值线图 ……99
23．中下扬子地区晚二叠世长兴期岩相古地理图 …… 100
24．中下扬子地区二叠系Ⅰ类生油气岩厚度等值线图…… 101
25．中下扬子地区二叠系Ⅱ类生油气岩厚度等值线图…… 102
26．中下扬子地区二叠系Ⅲ类生油气岩厚度等值线图…… 103
27．中下扬子地区二叠系油气生储盖条件组合图 …… 104

第二部分　专题研究和基干剖面研究

第十章　中下扬子地区二叠系的划分和对比……陈华成　覃兆松　齐敦伦　柳祖汉 107
第一节　绪言 …… 107
第二节　地层系统 …… 107
第三节　地层对比 …… 115
第四节　问题讨论 …… 117
参考文献 …… 121
第十一章　湖北利川黄泥塘二叠系岩石特征及沉积环境分析 ……
……彭德堂　金迪威　高振中 122
第一节　地层概况 …… 122
第二节　主要岩石特征及其成因分析 …… 122
第三节　沉积环境分析 …… 125
参考文献 …… 129
第十二章　湖北建始牯牛坪二叠系岩石特征及沉积环境分析 ……
……徐安武　曾波夫　胡　宁 130
第一节　地层 …… 130
第二节　岩石类型及其成因分析 …… 131
第三节　沉积环境分析 …… 135
参考文献 …… 138
第十三章　湖北黄石螺丝壳山二叠系岩石特征及沉积环境分析……何幼斌　吴胜和 139
第一节　地层 …… 139
第二节　岩石特征 …… 142
第三节　沉积环境分析 …… 145
参考文献 …… 146
第十四章　湖南涟源七星街下二叠统岩石特征及沉积环境分析 ……
……杨孟达　柳祖汉　陈淑珍 147
第一节　地层概述 …… 147
第二节　岩石类型及其特征 …… 149
第三节　沉积环境分析 …… 150
第十五章　江西萍乡上栗二叠系岩石特征及沉积环境分析 ……覃兆松　刘细元 153
第一节　地层 …… 154
第二节　主要岩石特征及其成因分析 …… 154
第三节　各组段沉积环境分析 …… 157
参考文献 …… 159
第十六章　安徽安庆白鹿尖二叠系岩石特征及沉积环境分析……
……齐敦伦　陈烈祖　金义祥　宫维莉 160
第一节　概述 …… 160

第二节　岩石类型及其成因分析 …… 160
第三节　沉积环境分析 …… 162
第十七章　安徽贵池牛角岭二叠系岩石特征及沉积环境分析
……黄明康　邢乐澄　庆承松 164
第一节　地层 …… 164
第二节　主要岩石类型及其特征 …… 166
第三节　沉积环境分析 …… 168
参考文献 …… 172
第十八章　安徽铜陵地区二叠系岩石特征及沉积环境分析
……郭柏英　黄文辉　朱国维　梁仁枝 173
第一节　地层概况 …… 173
第二节　岩石类型及其成因分析 …… 174
第三节　各组段沉积环境分析 …… 176
第十九章　安徽巢县平顶山二叠系岩石特征及沉积环境分析……迟元苓 178
第一节　地层概述 …… 178
第二节　主要岩石类型及其基本特征 …… 180
第三节　各组沉积环境分析 …… 183
第四节　油气生储盖条件简析 …… 185
参考文献 …… 186
第二十章　江苏南京地区二叠系岩石特征及沉积环境分析……毕仲其　兰善先 187
第一节　地层 …… 187
第二节　主要岩石类型及其成因分析 …… 188
第三节　各组段沉积环境分析 …… 191
参考文献 …… 194
第二十一章　江苏苏州西山二叠系岩石特征及沉积环境分析 ……龚祖兴 195
第一节　地层 …… 195
第二节　岩石类型及其成因分析 …… 196
第三节　沉积环境分析 …… 198
第二十二章　浙江桐庐冷坞二叠系岩石特征及沉积环境分析
……罗　璋　叶　舟　王国良 201
第一节　地层 …… 201
第二节　岩石类型 …… 203
第三节　沉积环境分析 …… 205

英文摘要 …… 211
图版及其说明 …… 245

CONTENTS

PART I LITHOFACIES PALEOGEOGRAPHY OF PERMIAN OF MIDDLE AND LOWER YANGTZE REGION

Feng Zengzhao *He Youbin* *Wu Shenghe*

Chapter 1 Introduction 3
Chapter 2 Stratigraphy 7
Section 1 Bottom boundary of Permian 7
Section 2 Jigongling Formation 9
Section 3 Qixia Formation 9
Section 4 Maokou Formation (Gufeng Formation) 11
Section 5 Wujiaping Formation (Longtan Formation) 12
Section 6 Changxing Formation (Dalong Formation) 13
Chapter 3 Fossil Assemblages 15
Section 1 Brief introduction of fossils 15
1. Algae 15
2. Foraminifera 15
3. Radiolaria 16
4. Sponge 16
5. Coral 16
6. Brachiopoda 16
7. Other organisms 16
Section 2 Fossil assemblages 17
1. Fossil Plant-bearing assemblage 17
2. Algae–Fusulinida–Coral assemblage 17
3. Sponge–Polyp assemblage 19
4. Radiolaria–Ammonites assemblage 20
Section 3 Characteristics of fossil assemblages of each Formation 21
1. Qixia Formation 21
2. Maokou Formation (Gufeng Formation) 21
3. Wujiaping Formation (Longtan Formation) 22
4. Changxing Formation (Dalong Formation) 23
Chapter 4 Petrology 25
Section 1 Limestones 25
1. Grain Limestone 25

2. Grainy lime-mud limestone and grain-bearing lime-mud limestone ····· 27
3. Lime-mud limestone ····· 27
4. Reef limestone ····· 27
5. Gravity-flow limestone ····· 28
6. Eyeball-shaped limestone ····· 29
Section 2 Dolostones ····· 30
1. Mud-silt-sized crystalline dolostone ····· 30
2. Fine-medium-sized crystalline dolostone ····· 30
Section 3 Clastic rocks ····· 31
1. Sandstone ····· 31
2. Siltstone ····· 31
3. Mudstone and shale ····· 32
Chapter 5 Siliceous Rocks ····· 33
Section 1 Thin-bedded siliceous rock ····· 33
1. Fundamental characteristics ····· 33
2. Study of its origin ····· 34
Section 2 Stratoid siliceous rock ····· 39
1. Fundamental characteristics ····· 39
2. Study of its origin ····· 39
Section 3 Lenticular, nodular siliceous rock ····· 40
1. Fundamental characteristics ····· 40
2. Study of its origin ····· 40
Chapter 6 Single Factor Analysis and Comprehensive Mapping Method——Methodology of lithofacies paleogeography ····· 42
Section 1 General remarks ····· 42
Section 2 *Brief introduction of single factors* ····· 43
Chapter 7 Lithofacies paleogeography of Early Permian ····· 45
Section 1 Lithofacies paleogeography of Jigongling Age ····· 45
Section 2 Lithofacies paleogeography of Qixia Age ····· 45
1. Fundamental single factor maps ····· 45
2. Lithofacies paleogeography ····· 47
Section 3 Lithofacies paleogeography of Maokou Age ····· 48
1. Fundamental single factor maps ····· 48
2. Lithofacies paleogeography ····· 50
3. Development and characteristics of penebanks ····· 53
Chapter 8 Lithofacies paleogeography of Late Permian ····· 55
Section 1 Lithofacies paleogeography of Wujiaping Age ····· 55
1. Fundamental single factor maps ····· 55
2. Lithofacies paleogeography ····· 56
Section 2 Lithofacies paleogeography of Changxing Age ····· 58

1. Fundamental single factor maps……58
2. Lithofacies paleogeography……59
3. Distribution of reefs in Changxing Age……61
Chapter 9 On the generating, reserving and capping conditions of oil and gas and other sedimentary ore deposits from the viewpoint of lithofacies paleogeography……66
Section 1 Generating conditions of oil and gas……66
Section 2 Reserving conditions of oil and gas……67
1. Carbonate reserviors of oil and gas……67
2. Clastic reserviors of oli and gas……69
Section 3 Caprock conditions of oil and gas and the generating, reserving and capping associations of oil and gas……70
Section 4 Other sedimentary ore deposits……71
References……72
Appendant maps……74
1. Lithofacies paleogeographical sketchy map of Jigongling Age of Early Permian of Middle and Lower Yangtze Region……74
2. Isopach map of Qixia Formation of Lower Permian of Middle and Lower Yangtze Region……75
3. Isoline map of biograins content (%) of Qixia Formation of Lower Permian of Middle and Lower Yangtze Region……77
4. Distribution map of stratoid siliceous rocks of Qixia Formation of Lower Permian of Middle and Lower Yangtze Region……78
5. Isoline map of the thickness ratio of rock types of Qixia Formation of Lower Permian of Middle and Lower Yangtze Region……79
6. Lithofacies paleogeographical map of Qixia Age of Early Permian of Middle and Lower Yangtze Region……80
7. Isopach map of thickness of Maokou Formation (Gufeng Formation) of Lower Permian of Middle and Lower Yangtze Region……81
8. Isoline map of carbonate rock content(%) of Maokou Formation (Gufeng Formation) of Lower Permian of Middle and Lower Yangtze Region……83
9. Isoline map of thin-bedded siliceous rock content (%) of Maokou Formation (Gufeng Formation) of Lower Permian of Middle and Lower Yangtze Region……84
10. Isoline map of sandstone content (%) of Maokou Formation (Gufeng Formation) of Lower Permian of Middle and Lower

Yangtze Region ····85
11. Isoline map of the ratio (D/S) of deep water sediments thickness and shallow water sediments thickness of Maokou Formation (Gufeng Formation) of Lower Permian of Middle and Lower Yangtze Region ····86
12. Lithofacies paleogeographical map of Maokou Age of Early Permian of Middle and Lower Yangtze Region····87
13. Isopach map of thickness of Wujiaping Formation (Longtan Formation) of Upper Permian of Middle and Lower Yangtze Region ····88
14. Isoline map of carbonate rock content (%) of Wujiaping Formation (Longtan Formation) of Upper Permian of Middle and Lower Yangtze Region ····90
15. Isoline map of sandstone content (%) of Wujiaping Formation (Longtan Formation) of Upper Permian of Middle and Lower Yangtze Region····91
16. Isoline map of thin-bedded siliceous rock content (%) of Wujiaping Formation(Longtan Formation)of Upper Permian of Middle and Lower Yangtze Region····92
17. Isoline map of ratio (D/S) of deep water sediments thickness to shallow water sediments thickness of Wujiaping Formation(Longtan Formation) of Upper Permian of Middle and Lower Yangtze Region····93
18. Lithofacies paleogeographical map of Wujiaping Age of Late Permian of Middle and Lower Yangtze Region ····94
19. Isopach map of Changxing Formation (Dalong Formation) of Upper Permian of Middle and Lower Yangtze Region ····95
20. Distribution of reefs and isoline map of sparry grain limestone content(%)of Changxing Formation(Dalong Formation) of Upper Permian of Middle and Lower Yangtze Region····97
21. Isoline map of thin-bedded siliceous rock content (%) of Changxing Formation (Dalong Formation) of Upper Permian of Middle and Lower Yangtze Region ····98
22. Isoline map of ratio (D/S) of deep water sediments thickness to shallow water sediments thickness of Changxing Fofmation (Dalong Formation) of Upper Permian of Middle and Lower Yangtze Region····99
23. Lithofacies paleogeographical map of Changxing Age of Late Permian of Middle and Lower Yangtze Region···· 100

24. Isoline map of thickness of type I oil and gas generating rock of Permian of Middle and Lower Yangtze Region 101
25. Isoline map of thickness of type II oil and gas generating rock of Permian of Middle and Lower Yangtze Region 102
26. Isoline map of thickness of type Ⅲ oil and gas generating rock of Permian of Middle and Lower Yangtze Region 103
27. Combined map of generating, reserving and capping conditions of oil and gas of Permian of Middle and Lower Yangtze Region 104

PART II SPECIFIC RESEARCH ON STRATIGRAPHY AND STUDY OF PRIMARY SECTIONS

Chapter 10 The division and correlation of Permian of Middle and Lower Yangtze Region
..... *Chen Huacheng, Qin Zhaosong, Qi Dunlun & Liu Zuhan* 107
Section 1 Introduction 107
Section 2 Stratigraphical system 107
Section 3 Stratigraphical correlation 115
Section 4 Discussion of problems 117
References 121
Chapter 11 Petrological characteristics and sedimentary environment analysis of Permian of Huangnitang, Lichuan County, Hubei Province
..... *Peng Detang, Jin Diwei & Gao Zhenzhong* 122
Section 1 General situation of the strata 122
Section 2 Main petrological characteristics and origin analysis 122
Section 3 Sedimentary environment analysis 125
References 129
Chapter 12 Petrological characteristics and sedimentary environment analysis of Permian of Kuniuping, Jianshi County, Hubei province
..... *Xu Anwu, Zeng Pofu & Hu Ning* 130
Section 1 Strata 130
Section 2 Rock types and origin analysis 131
Section 3 Sedimentary environment analysis 135
References 138
Chapter 13 Petrological characteristics and sedimentary environment analysis of Permian of Luosikeshan, Huangshi City, Hubei Province ..... *He Youbin & Wu Shenghe* 139

Section 1 Strata 139
Section 2 Petrological characteristics 142
Section 3 Sedimentary environment analysis 145
References 146
Chapter 14 Petrological characteristics and sedimentary environment analysis of Lower Permian of Qixingjie, Lianyuan City, Hunan Province
Yang Mengda, Liu Zuhan & Chen Shuzhen 147
Section 1 General remarks or the strata 147
Section 2 Rock types and their characteristics 149
Section 3 Sedimentary environment analysis 150
Chapter 15 Petrological characteristics and sedimentary environment analysis of Permian of Shangli, Pingxiang County, Jiangxi Province ..... *Qin Zhaosong & Liu Xiyuan* 153
Section 1 Strata 154
Section 2 Main petrological characteristics and origin analysis 154
Section 3 Sedimentary environment analysis of different Formations and Members 157
References 159
Chapter 16 Petrological characteristics and sedimentary environment analysis of Permian of Bailujian, Anqing City, Anhui Province
Qi Dunlun, Chen Liezu, Jin Yixiang & Gong Weili 160
Section 1 General remarks 160
Section 2 Rock types and origin analysis 160
Section 3 Sedimentary environment analysis 162
Chapter 17 Petrological characteristics and sedimentary environment analysis of Permian of Niujiaoling, Guichi County, Anhui Province
Huang Mingkang, Xing Dongcheng & Qing Chengsong 164
Section 1 Strata 164
Section 2 Main rock types and origin analysis 166
Section 3 Sedimentary environment analysis 168
References 172
Chapter 18 Petrological characteristics and sedimentary environment analysis of Permian of Tongling Area, Anhui Province
Guo Baiying, Huang Wenhui, Zhu Guowei & Liang Renzhi 173
Section 1 General remarks of the strata 173

Section 2 Rock types and origin analysis 174
Section 3 Sedimentary environment analysis 176
Chapter 19 Petrological characteristics and sedimentary environment analysis of Permian of Pingdingshan, Chaoxian County, Anhui Province ..... *Chi Yuanling* 178
Section 1 General remarks of the strata 178
Section 2 Main rock types and basic characteristics 180
Section 3 Sedimentary environment analysis of different Formations 183
Section 4 Brief analysis of generating, reserving and capping conditions 185
References 186
Chapter 20 Petrological characteristics and sedimentary environment analysis of Permian of Nanjing Area, Jiangsu Province ..... *Bi Zhongqi & Lan Shanxian* 187
Section 1 Strata 187
Section 2 Main rock types and origin analysis 188
Section 3 Sedimentary environment analysis of different Formations and Members 191
References 194
Chapter 21 Petrological characteristics and sedimentary environment analysis of Permian of Xishan, Suzhou City, Jiangsu Province ..... *Gong Zuxing* 195
Section 1 Strata 195
Section 2 Rock types and origin analysis 196
Section 3 Sedimentary environment analysis 198
Chapter 22 Petrological characteristics and sedimentary environment analysis of Permian of Lengwu, Tonglu County, Zhejiang Province ..... *Luo Zhang, Yie Zhou & Wang Guoliang* 201
Section 1 Strata 201
Section 2 Rock types 203
Section 3 Sedimentary environment analysis 205
